Find the care you need at the right price

With your plan's network, you have plenty of options for care. But how to decide where to go?

USE YOUR BLUE CROSS MEMBER ACCOUNT.

Whether at home or on the go, you can search doctors, places and procedures anytime, anywhere. Plus, you get the cost and quality information to choose what's best for you.

Log in to your account at bcbsm.com, or use the **Blue Cross mobile app**, to:

Pick doctors and places in your plan's network. Going out of your plan's network costs more. Locate doctors who accept your plan, and look up office hours, locations, hospital affiliations and quality designations.

Learn where you can save money. See how prices can differ by doctor, location or type of facility. Then discuss with your doctor where to go to pay less for lab tests, MRIs, physical therapy and other medical services.

Plan ahead for surgeries. Understand how long surgery can take and how much it costs to fully recover. Your account sums up the estimated cost* for each service involved with your procedure — from your first doctor visit to post-surgery treatment.

Find peace of mind with quality care. Knowing if a hospital has a quality designation for the specialty care you need can help you pinpoint where to go. Learn more at bcbsm.com/hospital-quality.
